

# **Roadmap for Core Chemical Engineering Intern**

## **Companies:**

- i) Dr. Reddy's Laboratories
- ii) Reliance Industries Limited
- iii) ITC
- iv) Hindustan Unilever Limited
- v) Piramal Group
- vi) Vedanta Resources Limited
- vii) Proctor and Gamble

## **Process (In general):**

- i) Resume Shortlisting
- ii) Test (for some companies)
- iii) Group Discussion
- iv) Interview

## **Resources:**

Chemical Process Industries (CHE261) notes\*.

Fluid Mechanics (CHE211)\*

Chemical Engineering Thermodynamics (CHE221)

Thermodynamics (ESO201) notes

\*Priority

### What do core companies look for?

Good CPI (most important).

Projects in the core domain.

Good communication skills.

### What should you do (in summer)?

- i) Revise your core subjects' notes thoroughly.
- ii) Improve your communication skills (especially for GDs)
- iii) Find projects under professors.
